

The modern “Christian” [APOSTATE / HARLOT] Church of *nondoctrinal* “Christianity” (which is actually Antichrist humanism).

Hi, I was born a wolf, but I “identify” with being a sheep; I’m a sheep trapped in a wolf’s body; so are my buddies here... they identify with being lamb not ham; they are lamb-chops trapped in pork chop bodies; oh the injustice of it all...! er... can we come in for lunch...?

Oh you poor dear... of course, come right in... the shepherd loves all animals, all colors, shapes, sizes, “orientations” and dietary habits... luv, luv, luv.

[Yes, that’s actually where the leaders of the modern “Christian” Church speak out of...]

The *True* Church

Hi, I was born a wolf, but I “identify” with being a sheep; I’m a sheep trapped in a wolf’s body; so are my buddies here... they identify with being lamb not ham; they are lamb-chops trapped in pork chop bodies; oh the injustice of it all...! er... can we come in for lunch...?

Well, that’s just terrible. Tell ya what. Once you get rid of that wolf body *completely*, and after your buddies *completely* “pig out”, then maybe we can talk about you all being “members” of our *t.v. audience*. I’d be glad to help you all get rid of being trapped in those *horrid, stinking, unclean* bodies... I can “set your spirits free”...! and you can then sing, “Free, Free at last, thanks be ta God we be free at last...!” Take one more step and you will be “free indeed”...! Christ came for His sheep and He commanded us *give not that which is holy to the dogs and cast not pearls before swine*—and you are a dog and your buddies are swine (and your internal “confusion”, whether real or feigned, is not *our* problem). Go form your own fold, congregation, nation. Ours is by invitation (birth and rebirth) only and you are not on the guest or member’s list. Christ is the Good Shepherd, not a dog-catcher or pig-herder. Dogs (or wolves), swine, and sheep do not descend from a common ancestor and *God commanded us to be separate!*
