Subgenation: The Theory of The Normal Relation of the Races (1864) John Van Evrie, with detailed corrective notes by R.A.B.; 177 pages total; the original was 72 pages, which was pretty bad, but it serves as a good springboard for truth, showing proper logical argumentation and Bible understanding, exposing Van Evrie's error; pb., 16.50 + P&H.

Here are some sample of my notes:

*86 And here we find the fatal flaw of his argument, as well as his invalid method of epistemology in general. Both Empiricism and Rationalism are invalid paradigms. They are unsupportable. Rationalism is not to be confused with logical (that is, rational) Biblical Presuppositionalism. God operates upon the mind. When the “heart” is mentioned in Scripture, it is used as a synonym for the mind or the intellect over 95% of the time (see Dr. Gordon H. Clark, The Biblical

Doctrine of Man). It does not refer to emotions or “feelings” or passions or the blood-pumping organ, though that is often the literal word that is used; similarly, the words “eyes” and “ears” are used in Scripture, but the intention is not merely the seeing or hearing, or the organic function of those organs, but the perception of information that those organs then channel to the brain to be contemplated and acted upon. Divine Wisdom is not achievable—not to be discovered—by experimentation, experience, observance, or rationalizing outside of or apart from the Revelation of God in the Holy Scriptures. See again Note 6. God reveals Truth. God reveals His Will. God establishes Morality. What God tells us is a perfectly logical, consistent, and harmonious paradigm—flawless. People who are confused (including most “Christians” and most Bible “experts”) are so because they adopt the wrong epistemological paradigm and think that God’s Word must be interpreted according to humanistic (and modernistic) notions of what God can and cannot do in order to be “fair” according to the invalid notions of modern man’s polluted, damaged mind. To the contrary—God is Perfect and Immutable. It is we who are to conform to Him; not vice versa. God’s Word is Immutable. Truth does not change. Here is the only correct method of Bible Hermeneutics: God is Perfect, Immutable: cannot lie, make a mistake, change His Mind, or have a better idea. God’s Word is an extension of His Mind and likewise is Constant and Sure. Therefore, what God says first sets the unchanging Standard by which all subsequent Scripture is to be interpreted. If there appears to be a “contradiction”, there is not; man is confused. See my Does God Repent...? and my Sacred Truth Expository Commentary series and my Apologetic Expositions series; as well as Races in Chaos, Kind Unto Kind, Ten Commandments for You(th), and other works of mine, which clear up nearly every alleged “contradiction” (which endeavor has been my life’s work). —R.A.B.

*87 This is polluted “logic” and is proof of my earlier point of his believing in situation ethics rather than in Morality and the Word of God. He hides behind the Bible, but it is not his Authority, nor even a thought in his mind unless he thinks that he can use it, twistedly or validly, to make his point. This is secular utilitarianism and a precursor to communism. Who then is to decide (and based upon what) what is “happiness” and what is the “common good”? [Again, see Dr. Gordon Clark’s books in Note 6, especially, A Christian View....] He then universalizes his statement, authoritarily, without any mention of which Biblical or “Natural” Law that so universalizes it. —R.A.B.

*88 No, no one can “make” anyone else superior or inferior in society. Anti-intellectual laws can be passed demanding that everyone psychotically “pretend” or even more mindlessly “believe” that all are equal, but that does not change reality. Political Correctness is a mental disorder of the highest stripe, in that, it is not merely the mental disorder of an individual, but the very legislation (or blackmail, intimidation, coercion, threat, punishment, inculcation) that all of society must exhibit the same mental disorder (how’s that for “equality”...?). The solution—the ONLY solution—is the Biblical Model, the Command of God: separation. As slavery in the U.S. showed, there will always be immoral individuals who will cross the moral racial boundary, for whatever reason. Different races cannot exist in the same society without mixing. Once that mixing becomes the majority, the nation is lost. The mixed majority will then display rabid intolerance, hatred, and criminal conduct against all those who are what they can never be. This has been the bane and the path and the end of every great civilization. It can end no other way. When a ship has taken on 90% water (“integration” of the water with the ship), it ends only one way. When a body is overrun by disease and parasites that outnumber the healthy cells, it ends only one way. —R.A.B.

94 Here he has his finger on the pulse of the solution worldwide, and he doesn’t even know it. God’s method of population control is separation and our not interfering to help aliens with anything. If they are “equal” let them prove it. God forbade us to do good, love, seek their peace or prosperity forever. When we violate that, we reap what we sow. If we left them alone disease, famine, drought, natural disaster, and their internecine wars would maintain their population. Since we have violated these Commands of God, they have so exploded in their populations that their own nations cannot contain them and they are now invading Christendom (the doors opened by the conspiratorial Jews and Catholic Church) to steal our nations from us. Prophecy repeats itself, if we violate what God commanded, God declared, “Wherefore I will bring [against My people] the worst of the heathen, and they shall possess their houses: I will also make the pomp of the strong [of My people] to cease; and their holy places shall be defiled” (Ezekiel 7:24) and “21And if ye walk contrary unto Me, and will not hearken unto Me; I will bring seven times more plagues upon you according to your sins. 22I will also send wild beasts among you, which shall rob you of your children, and destroy your cattle, and make you few in number; and your high ways shall be desolate.”** (Leviticus 26). —R.A.B.

* —does that sound like our churches, cities, street names, parks, high schools and historic monuments or what...? —R.A.B.

** —does that sound like our inner cities, malls, and highways outside our cities or what...? —R.A.B.

*125 What he says appears to be true. There can be no doubt concerning the importance of the State of Virginia and the model it set for the entire nation; nor can the importance of Virginians like Washington and Jefferson (as well as George Mason, Patrick Henry, etc.) be underestimated. However, while the integrity of the Southern soldiers cannot be denied,

putting the North to shame in general, it was New England and Philadelphia that were the spiritual compass of the nation, the seat of the Puritans (and later half a dozen northern midwest states were the bastion of Reformed preaching, education, and printing); whereas the South eventually degenerated into hillbilly emotionalism and Negro “spiritualism”, a doctrinally sterile folkway only vaguely reminiscent of Biblical Christianity. The North eventually succumbed also to a doctrinally sterile “Christianity”, but not the hillbilly type; it succumbed to the spiritual disease spread by Unitarianism from Rhode Island. —R.A.B.

126 Alexander Hamilton was born in Charlestown (the capital of the), island of Nevis, in the Federation of Saint Kitts and Nevis, Leeward Islands, West Indies; but was a citizen of New York. John Jay was from New York State, as were George Clinton and his nephew De Witt Clinton. Adams was a New Englander; as was Daniel Webster. Presumably Van Evrie means Oliver Ellsworth (of New England), but like most bad writers (who are poor thinkers), did not stop to think that his readers (whether of his era or generations to come) are not inside his head and do not know what he is thinking unless he offers a competent amount of words to assure that we do. If you are going to name drop, name drop properly. I have no idea who his “Marcy” is. And the influence and genius of Pennsylvania should not be overlooked, most especially Benjamin Franklin and Benjamin Rush. There is no doubt that the Revolutionary Colonial Era in the U.S. produced the most-remarkable wisdom and talent the world has possibly ever seen (especially Jefferson); but they were not produced from being raised in an era of slavery, but because the pinnacle of American academia and true Christianity was achieved on the coat-tails of the Puritans and Presbyterians and Calvinist Baptists and the institutions that they founded. —R.A.B.

* Jefferson was a polyglot, inventor, Renaissance man, who could write with one hand a phrase in Latin while at the same time writing the phrase in Greek with the other hand, scholar extraordinaire, whose modesty belied his erudition and of the highest morality. In 1962 when entertaining a group of several dozen Nobel Prize winners from the Western Hemisphere, at the dining table in the White house, John F. Kennedy quipped, “I think this is the most extraordinary collection of talent and of human knowledge that has ever been gathered together at the White House — with the possible exception of when Thomas Jefferson dined alone.” —R.A.B.

*241 His seemingly Spenglerian organic unity fails on many counts; especially that noted earlier (before his Spenglerian allusion) in that the Caucasian race is not dependent upon the noncaucasian “races” for its identity, purpose, or existence. All is not a unified organism. Each operates in the individual sphere in which God created it (and there is no such thing as “evolution” or “evolving”; if he meant “progress”, “develop”, or “adapt” then he should have used those words). While each form of life or nonlife fills the role that God established for each, each is not dependent on the other existentially or teleologically. Deer exist quite well in the forest without man to feed or clothe or bathe them; and while men may enjoy eating the deer, men are not dependent upon deer to establish man’s own purpose or identity. On a molecular level, indeed, plants are dependent upon sunshine, air, rain (water), and the mineral nutrients in the soil; but while those elements and nutrients are essential for the health and life of the plant, the plant does not derive its identity from those things, but from God; and God determined that the means by which plants would be healthy would be those external elements and factors that would be internalized. However, man is not such an organism. The Germanic, Celtic, Cymric, Baltic, Sclavic, and Norse peoples existed—thrived—for millennia, before they ever, unfortunately, learned what a Negro or a Chinaman was. Caucasians do not need to realize their highest destiny through subgenation to be “fully evolved”. Again, that is an insult of dependency upon inferiors. The highest achievement of any people, from an earthly perspective, is to stand on their own two feet and be their own success, without using alien people as a crutch. The highest ideal of any race is to achieve its fullest potential on its own. But the negroes can do neither. When governed or owned (to make them productive and keep them from killing and eating each other) they demand liberty; when liberated, they revert to barbarism, shamanism, and cannibalism, and when again reduced to chaos, anarchy, bankruptcy, disease, famine, etc., they demand aid and assistance, with no strings attached, having nothing to offer in return. And Van Evrie imagines that such a people help us become the best we can be...? —what an abominable fool! —R.A.B.

*267 This is all entertaining and informative, but utterly irrelevant. If an ambassador misrepresents what the king had expressed, that does not change what the king expressed; it reveals the incompetency or dishonesty of the ambassador. That Church leaders (Catholic or Protestant, ancient or modern) were wrong in some of their opinions and zealously guarded what they thought to be sacred truth or maliciously supplanted it with false doctrine, only shows that they either realized their duty to God, despite their ignorance in some matters, or that they themselves were corrupt. However, is this any different than the scientific profession itself, and the government...? Even the presumed scientific laws discovered by the great Galileo and Sir Isaac Newton, as well as Einstein, have all become obsolete (which means that they were wrong). That which is considered to be scientific “law”, keeps changing (which means that it is not “law”)—and yet the scientific “authorities” / government make greater and greater demands that everyone acknowledge what they have imperially decreed to be “truth”, and bow down to it, or be ruined. Why then do such critical authors hold the Medieval Church to a HIGHER Standard, than they hold the scientific “experts” of the modern, advanced, progressive, enlightened

era? Which of the two, therefore, is more guilty? Modern scientists have an extra 1,000 years of history, experimentation, and research to stand upon, yet they still cannot get it right. Yet they demand to be recognized unquestionably as the “experts”, and demand that they be recognized as the only ones who have any right to make any scientific decision regarding anyone’s health or very life...! —R.A.B.

*274 Miller does not explain (at least, in this quotation) what was “remarkable”. Just because Turretini was wrong about his notion of the earth not moving and birds and other objects travelling in the air, does not mean that he was wrong in every area. People like Miller who belittle someone like Turretini (if that is what he is doing) have a double-standard, and when “non-Christian” scientists make enormous blunders, it is nothing “extraordinary”, but just chalked up to: “Scientists are human too; they make mistakes”. But for a Christian scientist to make a mistake, based upon his own blindspots or misperceptions, it appears to be “unforgivable” and his entire ability as a scientist is considered suspect. However, in many other cases, it is the Christian scientists who are correct (but that will never be conceded). Christian scientists have been the ones who have helped develop most of what we know (men such as Newton, etc.), despite their own imperfections. Also, it is irrelevant that Turretini’s age was not “by any means a remote one”. It was about 200 years from Miller’s day—and in terms of progress in science, 200 years is like a light year!

Turretini’s answer is quite logical and Biblical (except in the issue of the earth not moving). What Miller fails to realize (as does Van Evrie) is that secular scientists have been JUST AS WRONG over the past millennia, and just as PIG HEADED—and still are. The hold that Evolution has over academia is crippling (and blinding) and anyone who questions the “sacred religion of evolution” has his career ruined. See the DVD presentation by Ben Stein, Expelled: No Intelligence Allowed. There is NO — ZERO proof of evolution. Most of science today is not even science; and is continually being “replaced”. Scientific Law does not change; therefore, the majority of science is not based upon scientific fact, but delusion / misperception. How then can the scientists consider themselves “experts” and how can the author of this treatise lambast theologians from 300 to 400 years ago, for their scientific error (when they did not even claim to be scientists) in attempting to explain Bible passages that they did not understand; while at the same time overlooking the profound ignorance of the scientists who are supposed to know what they are talking about, but don’t? Science cannot even define or explain motion. I explain this in greater depth in Modern Publisher’s Note 6. —R.A.B.

Note 7 - page 12

It is an anti-intellectual notion to imagine that because some unscholarly positions held by the “Church” were eventually overcome without any damage to faith in the Bible, that therefore, other toppling of ideas (valid or invalid) will have no affect on people’s faith in the Bible. Furthermore, just because a person (with little long-range vision or foresight) cannot recognize damage, does not mean that no damage has been done. Some diseases don’t erupt for decades after infection. A person may look perfectly healthy, but have suffered irreversible organ damage and soon die. Damage to a structure may not be visible, but may cause collapse when stress is applied. ALL OF CHRISTENDOM and every tenet of the Christian faith has been under assault and Christendom is actually now facing extinction. This all began with the undermining of Doctrine—like a dull-minded adolescent taking a clock apart, putting it back together and realizing that he has a whole pile of “unnecessary” parts left over. It may still look like a clock; but wait and see how well it keeps time. There are no unnecessary parts in such a perfected device—and there are no unnecessary words in the Bible (much less unnecessary doctrines). God is Omniscient and Perfect and Immutable and True. Truth never changes. Human “progress” never “leaves truth behind in the dust”.

Furthermore, the very wording “weakened the moral truths of Revelation” is tainted with flawed thought. Scripture (which is what he means by “Revelation”, that is, Divine Revelation, not specifically, “prophecy”, as in the Book of Revelation) is not merely “moral truth”. It is the Revealed Will of our Creator, Redeemer, and Lord—it is His Command concerning how we are to live in every single area of life, either by outright Law (letter), or based upon related principle (spirit) of Law. Likewise, his pooh-poohing statement that some predicted that pseudo-scientific false doctrine in these areas would result in “the downfall of the Church and all true religion”, again, is flawed in several areas. First, he reveals that he does not understand true Doctrine, or the nature of Divine Revelation, or the nature of truth. Secondly, he does not understand what science can and cannot “prove” and he confuses pseudo-scientific “theories” with fact and reality. Finally, he does not understand the damage that is done, over time, to the undermining of the foundation, whether a human body, a body politic / nation, or the true Church. They have weight limits for vehicles crossing bridges for a reason. One overweighted vehicle may not cause a collapse; but over time, many overweighted vehicles will, to the point that the bridge collapses. Similarly, one boulder catapulted against a city wall will not bring the wall down, but after many repeated assaults, one final stone eventually will. One can depart from the proper path or make a bad choice and then make the mindless statement, “See, nothing terrible happened”. Hundreds of movies (and even cartoons) epitomize the foolishness of such a course of action and statement, and the epitaph, “famous last words” (or even “The Darwin Awards”*) the comes into play when “the other shoe drops”.

[* Which some organization awards annually to the many people who annually make stupid decisions and it costs them their lives (which are often printed in paperback annual volumes). The explanation of the title is due to the fact that based upon the Darwinian Model of “survival of the fittest” and “natural selection”, those who aren’t too bright die and improve the gene pool. However, this is not actually the case, for 2 reasons: 1. They most often reproduce prolifically, before their own demise; 2. The sheer volume of all those who fit into this category is so overwhelming, no dent in the overall deserving population is ever made.]

Books by Alan Eckert,

Narratives / Winning of America series

1 Frontiersman- HB 35.00 + P&H; pb., 19.00 + P&H.

[This is one of the best-books I've ever read. Most everyone who has taken me at my word and ordered it agrees. It is a book you can't put down and don't want to end.

Against the background of such names as George Rogers Clark, Daniel Boone, Arthur St. Clair, Anthony Wayne, Simon Girty and William Henry Harrison, Eckert has recreated the life of one of America's most outstanding heroes, Simon Kenton. Kenton's role in opening the Northwest Territory to settlement more than rivaled that of his friend Daniel Boone. By his eighteenth birthday, Kenton had already won frontier renown as woodsman, fighter and scout. His incredible physical strength and endurance, his great dignity and innate kindness made him the ideal prototype of the frontier hero.

Yet there is another story to The Frontiersmen. It is equally the story of one of history's greatest leaders, whose misfortune was to be born to a doomed cause and a dying race. Tecumseh, the brilliant Shawnee chief, welded together by the sheer force of his intellect and charisma an incredible Indian confederacy that came desperately close to breaking the thrust of the white man's westward expansion. Like Kenton, Tecumseh was the paragon of his people's virtues, and the story of his life, in Allan Eckert's hands, reveals most profoundly the grandeur and the tragedy of the American Indian.

No less importantly, The Frontiersmen is the story of wilderness America itself, its penetration and settlement, and it is Eckert's particular grace to be able to evoke life and meaning from the raw facts of this story. In The Frontiersmen not only do we care about our long-forgotten fathers, we live again with them.

Researched for seven years, The Frontiersmen is the first in Mr. Eckert's "The Winning of America" series.

The frontiersmen were a remarkable breed of men. They were often rough and illiterate, sometimes brutal and vicious, often seeking an escape in the wilderness of mid-America from crimes committed back east. In the beautiful but deadly country which would one day come to be known as West Virginia, Kentucky, Michigan, Ohio, Indiana, and Illinois, more often than not they left their bones to bleach beside forest paths or on the banks of the Ohio River, victims of Indians who claimed the vast virgin territory and strove to turn back the growing tide of whites. These frontiersmen are the subjects of Allan Eckert's dramatic history. Centers around the incredible life of the greatest frontiersman, Simon Kenton.

2 Wilderness Empire - HB 35.00 + P&H; pb., 19.00 + P&H.

For over two hundred years no Indian force in America was so powerful and feared as the Iroquois League. Throughout two thirds of this continent, the cry of "The Iroquois are coming!" was enough to demoralize entire tribes. But these Iroquois occupied and controlled a vast wilderness empire which beckoned like a precious gem to foreign powers. France and England secured footholds and suddenly each was claiming as its own this land of the Iroquois. Alliance with the Indians was the key; whichever power controlled them could destroy the other.

Wilderness Empire is the gripping narrative of the eighteenth-century struggle of these two powers to win for themselves the allegiance of the Indians in a war for territorial dominance, yet without letting these Indians know that the prize of the war would be this very Iroquois land. It is the story of English strength hamstrung by incredible incompetence, of French power sapped by devastating corruption. It is the story of the English, Indian and French individuals whose lives intertwine in the greatest territorial struggle in American history--the French and Indian War.

3 Conquerors - HB 35.00 + P&H (possibly by year's end); pb., 17.00 + P&H.

The Conquerors, the third volume in Allan Eckert's acclaimed series, The Winning of America, continues the narrative of The Frontiersmen and Wilderness Empire: the violent and monumental story of the wresting of the North American continent from the Indians. But the locale has moved westward—to the northern frontiers of Pennsylvania, to Michigan and the Green Bay area, especially the crucial outposts of Fort Pitt and Fort Detroit, Sandusky and Mackinac.

Wilderness Empire concluded with the English victory in the French and Indian War, a conquest which gave them possession of an immense North American empire. Now English soldiers and traders began the trek across the wilderness to man the former French outposts, to secure the land for the Crown and to exploit its riches. But these men were to find that the conquest of the Northwest did not end with the defeat of the French. The Indians had only resentment for the English, whom they regarded not as conquerors, but as unwelcome interlopers on their own ancestral lands. At last, provoked beyond endurance by restrictive policies, and encouraged by agents of the French, the most powerful tribes of the region united behind the charismatic Pontiac, war chief of the Ottawa, in a concerted effort to drive the English forever from the Northwest.

The Conquerors is the story of Pontiac's uprising and the men involved in it: the conquering English, both soldiers and intrepid civilians, who undertook the dangers of the Indian trade for profit and the adventure of opening a new land; and, most importantly, the Indians, who refused to accept the yoke of the conquered and were driven to violence to protect their homes and their way of life from the encroachment of an alien civilization.

4 Wilderness War - HB 35.00 + P&H; pb., 19.00 + P&H.

From Niagara Falls to Lake Champlain, the warriors of the mighty Iroquois ruled supreme. Not even the savagery of the French and Indian wars could cool their fury or halt their power. But by 1770 the restless white men were warring once again. Thayendanegea, the valiant Iroquois war chief, allied his fierce tribes with the one white man the Indians loved and trusted, Sir William Johnson. Once more the frontier would erupt, pitting the Indians' unvanquished spirit against the white settlers' relentless challenge. Allan W. Eckert's Narratives of America are true sagas of the brave men and courageous women who won our land. Every character and event in this sweeping series is drawn from actual history and woven into the vast and powerful epic that was America's westward expansion. Allan W. Eckert has made America's heritage an authentic, exciting, and powerful reading experience.

5 Gateway to Empire - pb., 19.00 + P&H.

With his unmatched ability to bring our vibrant early history to life, Allan W. Eckert now presents his latest saga of the battle for the North American wilderness. Here, in all its fascinating human drama, is the struggle to control the "gateway to empire"--Chicago Portage, the vital link between the East and the untapped riches of the west. Caught up in the turbulent sweep of events are two men--John Kinzie, a successful trader with a heroic taste for a new frontiers who fought to live in mutual respect with the Indians, and Tecumseh the Shawnee leader, a man of unparalleled wisdom and courage who would see his dream of a united Indian empire betrayed. As the British move toward the war 1812 both men and their people would be trapped in a tragic conflict that would threaten the land they so passionately loved.

6 Twilight of Empire - pb., 17.00 + P&H.

Twilight of Empire, the sixth and final volume in Allan W. Eckert's highly acclaimed "The Winning of America" series, continues the tale of America's westward expansion and the trickery, warfare, purchase, theft, and treaty through which it was achieved. Eckert immerses the reader in the history of the Northwest Territories and the Louisiana Purchase during the first half of the nineteenth century as he relates the dramatic events presaging and composing the Black Hawk War of 1832. It is a story with heroes and scoundrels on both sides and is peopled with men whose names have gone down in history.

Dark Journey, Hb, 25.00 + P&H.

This riveting book may well be the most historically accurate and detailed telling of the 1846-47 Donner-Reed Party's traumatic journey to California. Of the hundreds of wagon trains traveling west, only the Donner Party left an indelible imprint on our national imagination, the wagon trains fame sealed by its terrible fate. In his fortieth book, Eckert, seven times nominated for the Pulitzer Prize, tells the story of the entire journey—the late start, slow pace, leadership changes, disputes, the fateful decision to follow Lansford Hastings' hyped but untested route which led to one disaster after another—deaths from natural causes, accidents, fights, and a murder before they reached California—as the group fell behind all the others traveling that year. Of course, this all led to their entrapment in the Eastern Sierra in one of the harshest Sierra winters ever recorded. Includes the stories of the party members who forged ahead seeking help, and the several parties of rescuers who came to their aid, including the shocking murder of two of the rescuers, an incident brushed aside in many previous accounts.

Eckert's masterful telling brings alive the Donner Party's 88 members and the fates of the eleven families and numerous single men who risked all, of whom just 51 survived. He enriches the compelling tale with vivid descriptions of the colorful characters, both in the party and among those they met: mountain men, native peoples both hostile and helpful, and more. This poignant and dramatic account provides a rigorously accurate and comprehensive telling of one of America's great pioneer sagas.

Blue Jacket, Hb., pb., 16.00 + P&H.

In the year 1771, a white boy named Marmaduke Van Swearingen was captured by the Shawnee Indians in what is now West Virginia, but was then the edge of the American frontier. Impressed with his bravery, he was not killed but instead was taken to Ohio where he was adopted into the tribe and given the name Blue Jacket, from the blue shirt he was wearing at the time of his capture. Eckert has taken all of the known facts of Blue Jacket's life and has woven them into a narrative of compelling interest, with a very different perspective on the way America was settled. The reader will learn what life was really like on the dangerous frontier wilderness that was West Virginia, Kentucky and Ohio before the Revolutionary War.

Court Martial of Daniel Boone, pb., 18.00 + P&H.

This young adult historical novel is based on an exciting and little known incident in the life of the famed Kentucky frontiers-

man Daniel Boone when, after being captured by Shawnee Indians and subsequently adopted into their tribe, he then escapes and returns to Boonesboro, only to find himself charged with treason and court-martialed. In a brilliant display of ability, Boone defends himself at the trial and gradually the truth about what really happened emerges. A fascinating glimpse of Kentucky's pioneer period as well as a penetrating look at frontier courtroom justice.

Diversity Delusion: How Race and Gender Pandering Corrupt the University and Undermine Our Culture (2018) Heather Mac Donald, 280pp., Hb., 27.00 (reg. 29.00) + P&H -

By the New York Times bestselling author: a provocative account of the attack on the humanities, the rise of intolerance, and the erosion of serious learning

America is in crisis, from the university to the workplace. Toxic ideas first spread by higher education have undermined humanistic values, fueled intolerance, and widened divisions in our larger culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling, or employers hiring by merit? Racist and sexist. Students emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges these campus orthodoxies is silenced with brute force.

The Diversity Delusion argues that the root of this problem is the belief in America's endemic racism and sexism, a belief that has engendered a metastasizing diversity bureaucracy in society and academia. Diversity commissars denounce meritocratic standards as discriminatory, enforce hiring quotas, and teach students and adults alike to think of themselves as perpetual victims. From #MeToo mania that blurs flirtations with criminal acts, to implicit bias and diversity compliance training that sees racism in every interaction, Heather Mac Donald argues that we are creating a nation of narrowed minds, primed for grievance, and that we are putting our competitive edge at risk.

But there is hope in the works of authors, composers, and artists who have long inspired the best in us. Compiling the author's decades of research and writing on the subject, The Diversity Delusion calls for a return to the classical liberal pursuits of open-minded inquiry and expression, by which everyone can discover a common humanity.

- Sacred Truth Expository Commentary on the Book of the Prophet Jonah, Balaicius, 634pp., pb., 32.00 + P&H. No commentator that I know of, understands the purpose and message of the Book of Jonah. This book is an amazing journey; a simple book misunderstood in regard to its general purpose and overall lesson; and many elements of the book are interpreted different by many. A very short book with remarkably very little detail, actually presents a larger-than-life story with amazing insight that no other commentator or theologian has ever uncovered; the illogic and outright heresy of many commentators and "experts" is scrutinized and refuted.

- Called Unto Holiness (1936) Ruth Paxson, originally pocket sized paperback 128 pages (of airy, large margin), book size expanded to 6x9 with detailed complementary and correctional notes by Balaicius, 330pp. total, 18.50 + P&H.

I edited/published the below a few years ago:

Rivers of Living Water (1930) Ruth Paxson, with complementary and corrective notes by Robert Alan Balaicius, Paxson's work was a pocket-sized paperback, 128pp., which I have enlarged a little bit in facsimile reprint, This was a remarkably well-written little booklet with more truth than error, though she did not go into great depth in her explanations, I make up for that and also make doctrinal corrections; total pages 262 6x9 pb., 18.00 + P&H.

- "I Cried, He Answered" — A Faithful Record of Remarkable Answers to Prayer (1918), compiled and edited by Henry W. Adams, Norman H. Camp, William Norton, and F.A. Steven, with an Introduction by Charles Gallaudet Trumbull; 128pp., original print was very small, so enlarged it 22% and made into 6x9 pb., 288pp., 14.50 + P&H.

The print was small and the book 7x10 so I expanded to 8.5x11 and was able to enlarge the print 19%. This is a huge book and weighs nearly 4 lbs.

One person who ordered this book, who is an older gentleman who has long been an avid reader, said this was one of the best and most important 5 books he has ever read. Another person saw an original at the library of Bob Jones University and was impressed with the book and ordered a copy from me, and could not believe the quality, being far better than the original; he took his new copy to BJU and showed it to them, and they ordered a copy so they could "retire" to the archives the original. Unless you have studied the history, biography, and doctrine of our faith, of the Reformation and of the founding of the U.S., there is no way it can be appreciated, comprehended, and there is no reason for anyone to realize the need to preserve it, and they will not be able to recognize counterfeits if they don't know the true. - Does God Repent...? Can God Change His Mind...? [And an Utter Demolishment of the Humanistic Myth of Man's "Free Will" and Arminianism], 506pp., 25.00 + P&H. Dovetails nicely with God and Evil and The Sovereignty of God.... Lively, profound, revealing, thought provoking, convincing thought, logic, Scripture. Exposes the subversion of true Christian faith in counter reformation re-introducing false theology of Origen and Pelagius and corruption of modern church by Jesuits and crypto-jews and terribly deceived humanists such as Scheiermacher, Kierkegaard, Spinoza, Barth, Schweitzer, Erasmus of Rotterdam, and many more, including undermining of Puritan church by Solomon Stoddard, and much more; also dissects the false theology from one chapter of two different books; one by Dr. Normal Geisler and one by Brother Andrew.

- "The Jukes" — A Study in Crime, Pauperism, Disease, and Heredity and Further Studies of Criminals (1877) Dugdale (Member of the Executive Committee of the Prison Association, New York), 121pp., pb., 12.50 + P&H.

This study focuses on one large family of New York State: descendants of an early settler, a Dutch backwoodsman, who had no religious inclination. 900 out of 1,000 to 1,200 family members were researched and interviewed. An incredible number of criminals / degenerates / prostitutes proliferated this family. God clearly said that He would visit the iniquity to the third and fourth generation of those who hate Him; but show mercy to a thousand generations of those who love Him and keep His Commandments.

[In contradistinction (though not part of the study), the colonial minister Jonathan Edwards out of his 1,394 known- male

descendants (at the time of the study), more than 300 became pastors, missionaries, or theological professors—that's 21.5%!—and others were statesmen.]

Thomas E. Watson (1856–1922) U. S. Senator, attorney, newspaper editor, historian, and author from Georgia, who was a firm Christian and wrote not only biographies (such as Jefferson, Jackson, and Napoleon) but also on controversial topics.

Watson was honored with a 12-foot-high (3.7 m) bronze statue on the lawn of the Georgia State Capitol in Atlanta over the legend "A champion of right who never faltered in the cause." In October 2013, Governor Nathan Deal signed an order for the relocation of the statue to Park Plaza, which is across the street from the Capitol. He said that the relocation was part of a renovation. On November 29, 2013, Watson's statue was removed from the steps of the state Capitol, and relocated across the street at Park Plaza.

Scottish missionary of the Plymouth Brethren in central-southern Africa], 504pp. + 20pp. photos, pb., 28.00 + P&H. I began reading this to see if it was worthwhile, as someone had told me about it. I find it very interesting, intriguing, enlightening, thought-provoking, entertaining, humorous, profound... to me, the book has a very odd tone of thought; if I can put my finger on it, I believe it seems as if he merely describes things and does not explain them; there is no explaining random chaos, there is only describing it... and that is all he can do with the topic at hand... he was a missionary, but one with honest insight into the blank mind of those primitives he was around... the book seems to begin with no purpose, no explanation, you just awake and find yourself in his safari trekking through the hot and humid bush... with his unique manners of description and humor and blunt insight. In the beginning he mentions the Portuguese he encountered in Mozambique at the first area from which he embarked and noted how indolent the Portuguese were, and expressed that it was believed that they would not drink coffee for breakfast under the assumption it might keep them up the rest of the day.

- The Murder of Andrei Yushchinsky (1917) G.G. Zamyslovsky, translated from Russian into English, 486pp., 6x9 pb., 25.00 + P&H.

Shortly before World War I, the Russian Empire was shaken by the bestial murder of Andrei Yushchinsky, a 13-year-old boy, whose exsanguinated body, bearing all the traces of a Jewish ritual murder, was found in March 1911 on the outskirts of Kiev. The ensuing trial, held in the autumn of 1913, attracted wide attention not only in Russia, but also in Europe and even in the USA. A Jew named Mendel Beilis was the only defendant. Although he was eventually acquitted by the jury, the same verdict also said that it was basically a ritual murder, one committed at a Jewish brick factory. This book was written by G.G. Zamyslovsky, a member of the Russian State Duma, who served as a civil prosecutor (or “civil plaintiff”) at the Beilis trial. In addition to the description of Yushchinsky’s murder, it contains a lot of other valuable information, including a detailed account of two famous ritual murder trials which took place in the Russian towns of Velizh and Saratov in the 19th century.

Jewish Ritual Murder — A Historical Investigation (1943) Hellmut Schramm, Ph.D., translated from the German, 477pp., 6x9 pb., 25.00 + P&H.

The fact of Jewish Ritual Murder (JRM), happening at least occasionally or sporadically, has been established beyond doubt via church and secular records throughout ancient, medieval and modern times, including formal juridical proceedings. This book by Hellmut Schramm, Ph.D., forms an exposition of those records and is a valuable addition to the historiography on this subject. Completed in 1941 and published 1943-44 in Germany during the National Socialist regime, it was produced in an atmosphere obviously conducive to free historical inquiry on this otherwise forbidden “third-rail” topic. This edition is based on an earlier version posted on the Web but has been enhanced substantially with an expanded bibliography, more graphics and the addition of a section featuring text from Eisenmenger’s magnum opus, Entdecktes Judenthum. It has been produced with the express permission and cooperation of the original translator.

Little taught nowadays, incredible man - a true legend. One of only 2 men who could fire and reload and fire musket while running full speed. I highly recommend this book. Publisher Marketing: In today's atheistic climate most people have no idea how much powerful evidence exists for the literal accuracy and authenticity of the biblical record. The British Museum holds a huge number of discoveries that provide direct corroboration and background confirmation for an immense sweep of Bible history. This survey of Bible-authenticating exhibits has been designed as a guide for visitors, and also to give pleasure and interest to readers unable to tour the galleries. It is also most suitable for people who need to see the accuracy and inspiration of the Bible. The 'tour' followed here started life over 40 years ago and has been used by thousands of people. Almost every item viewed on the tour receives a full colour photograph. Room plans are provided for every gallery visited showing the precise location of artifacts, and time-charts relate the items to contemporary kings and prophets. The book is enriched by pictures and descriptions of famous 'proofs' in other museums also.

Sacred Truth Expository Commentary on Ecclesiastes, 554pp., pb., 30.00 + P&H. One of the hardest I ever had to write; one of the most-controversial, challenging.

Sacred Truth Expository Commentary on the Epistle to the Hebrews, Balaicius, 632pp., pb., 30.00 + P&H.

- Epistle of Paul the Apostle to the Romans, Balaicius, 758pp., pb., Possibly the only correct commentary since Paul wrote his epistle... chapter by chapter, verse by verse... shows the "Gentiles" and "Greeks were the Israelites of the dispersion, identifies all the Old Testament quotations and allusions made by Paul, shows that Paul in no way suggested that the law was abolished, or changed, or that it was "optional"; lays bare the error of anti-Paulines and defends Paul's identity and office. Shows the correct method of Biblical interpretation will prevent/dispell all false interpretations and false doctrine, also shows how many people, for some reason, read truth backwards and confuse themselves, and also misunderstand things because they focus on a minor point of a passage, rather than the major point; and often like a deer in headlights, focus on what they do not understand instead of focusing on what they do understand while meditating until God gives greater light on what they don't understand. Ties in a plethora of Old and New Testament Scripture. One of my most important works. 40.00 + P&H.

- Calling the Remnant of Christendom: Come Out From Among Them and Be Ye Separate...!, Balaicius, 88pp., stapleback., 6.00 + P&H.

These will be 2 of the most powerful books on race from a Biblical perspective. Both contained significant error, but served as an excellent springboard to introduce Biblical truth and to show how to recognize truth from error and BIBLICALLY DEFEND the truth through the addition of my very detailed corrective notes.

- Does God Repent...? Can God Change His Mind...? [And an Utter Demolishment of the Humanistic Myth of Man's "Free Will" and Arminianism], 484pp., 22.50 + P&H. Dovetails nicely with God and Evil and The Sovereignty of God... Lively, profound, revealing, thought provoking, convincing thought, logic, Scripture. Exposes the subversion of true Christian faith in counter reformation re-introducing false theology of Origen and Pelagius and corruption of modern church by Jesuits and crypto-jews and terribly deceived humanists such as Scheiermacher, Kierkegaard, Spinoza, Barth, Schweitzer, Erasmus of Rotterdam, and many more, including undermining of Puritan church by Solomon Stoddard, and much more; also Dissects the false theology from one chapter of two different books; one by Dr. Normal Geisler and one by Brother Andrew.

The Moral and Intellectual Diversity of Races (Lippincott, Phila, PA, 1856), by Count Joseph Arthur de Gobineau, with Addendum by Dr. Josiah C. Nott, M.D. (famous for his medical research) and Analytical Introduction and scientific notes by Henry Hotze; Nott interjects his thoughts refuting on both scientific and Biblical grounds Gobineau's notion that all races descend from Adam (pages 461-512); Gobineau mistakenly believed all came from Adam, but he clearly did not believe they were equal. Gobineau's work was later retitled, "The Inequality of the Human Races" in 1915 when reprinted by various publishers, G. P. Putnam's Sons; William Heinemann; Thurland & Thurland. This will be reprinted from the 1856 edition. 512pp.; with addendum / appendix by R.A. The Original Life and Adventures of Tom Quick, The Indian Slayer, as Published at Monticello in 1851: And the Pioneers of Minisink and Wawarsink (1894 ed.), James E. Quinlan & T. G. Cutler, 123pp., pb., very rare, 12.50 + P&H; true story of

son avenging death of father during French & Indian Wars, devoted life to exterminating few remaining Indians in N.E. Pennsylvania. Settling in Milford, Pennsylvania, the family enjoyed peaceful relationship w/ Indians. At outbreak of French & Indian Wars, relationship w/ small group of settlers became strained & dispute about land known as Minisink. Quick's father was killed & scalped during sudden attack, which led Quick to long, vengeful campaign to kill as many Indians as he could. In fact, he killed nearly 100 over many years, eventually died of old age. When book was written, he was one of great icons of American folklore & exploits were common fare of fireside storytellers & cracker-barrel old-timers. Today, he is virtually forgotten. Political correctness recently motivated his hometown of Milford, PA to dismantle handsome monument over his remains & replace it with apologetic plaque. References to him have been eliminated from local history. This is the original biography of Tom Quick, published in 1851; containing virtually every tale associated with craft & cunning of Tom Quick, & many narratives relating to early settlers of the upper Delaware Valley. Of special interest to historians are the chapters devoted to the Battle of Minisink during the American Revolution. The abridged version, published in 1894, lacks several key chapters, footnotes and the Appendix.

The Indians or Narratives of Massacres and Depredations on the Frontier, in the Wawasink and its Vicinity, during the American Revolution (1846), by A Descendent of the Huguenots [Abraham G. The Reign of the Elders (Gold - Gold - Gold) (1938) 112pp., comb-bound, rare, 12.50 + P&H. [Preface: "This brief story of the machinations of the 'Learned Elders of Zion' is intended to supplement the more comprehensive discussion of the Jewish problem as set out in detail in the two volumes of 'The International Jew...' 17 articles on Protocols, Rothschilds, Roosevelt, etc.] Some think that Judge George Washington Armstrong wrote this, but that seems highly unlikely. Armstrong unabashedly wrote similar titles using his own name and the name of his foundation; there would be no reason for him to write a similar title anonymously, without any publisher info.

- Rebutting a Limp 'Refutation': Christian Anglo-Israel Defended; "Heresies Exposed" —Exposed as Impotent Hearsay, by Robert Alan Balaicius, 88pp., 6.00 + P&H. This begins with a 10-page "exposé" from a book I reprinted by a mainstream author, "Heresies Exposed" (entire book deals with many false doctrines, and the author included a 10-page chapter on "British Israel", though he proved himself ignorant, dishonest, and inadequate) and ends with my 72-page rebuttal.

I don't believe that there is anything earth-shattering in these books, but they are rare and no doubt contain some good insight, mixed among early B-I error that Germany was Assyria and that the Jews were Judah.

The Message of the Great Pyramid to the Anglo-Saxons — Isaac's Sons (1928) Frederick Haberman, 83pp., was small print so I expanded to 8.5x11, plastic comb-bound, 13.00 + P&H.

The Coming Battle: A Complete History of the National Banking Money Power in the United States (1899) By M.W. Walbert

First published in 1899, republished for the first time in 100 years! The Coming Battle documents from congressional records, newspaper reports and writings by the founding fathers and others, a chronology of events long forgotten that shaped our fledgling nation from 1776 to 1899. Read about the manipulation of our money and its supply, the intentional creation of recessions, depressions and panics. The manipulation of the stock markets. The demonetization of silver. A breathtaking history told in the words of a contemporary witness to these events. The complete early history of the creation of the Federal Reserve. This masterpiece reveals how the banking money power and corporate interests, partnering with government, set up a framework to exploit American workers. Lost for 100 years! 360 pages. I have also printed in paperback the first 6 of the Nieritz Library (see below).

Please consider the below for yourselves, your children and grandchildren. I am reading each and every one of these as I produce them and they are captivating and delightful, and each seems better than the previous; children's Protestant novels, based partly on European history, embedded with Scripture and moral principles. I think that I have now read more children's books as an adult than I did as a child. These are pre-teen and up, I imagine. THESE are the books you should read to your children as stories, and ones they should read when they are old enough.

They are all by Carl Gustav Nieritz (1795-1876) and were translated from German into English, some in what was called, "The Fatherland Series" by one publisher. EVERYONE (adult and youngster) needs to order and read all of these! Every church that has a library, every Christian school or homeschool group should have a set. My people are destroyed because they lack knowledge... because you have forgotten My Law I will forget your children. My people hath been a lost sheep. The ox knoweth his owner, and the ass his master's crib: but Israel doth not know, my people doth not consider [SEPARATE, DISTINGUISH]. Look to the rock whence ye were hewn. To destroy a people you must sever their roots. Those who do not learn from history are doomed to repeat it.

If you order any of these books from the Print on Demand companies (which usually employ chinese or hindu indian sweatshops, and some are even hindu owned and even printed in India) you will pay about \$20.00-30.00 per individual title (with possible missing pages, damaged, unreadable text, etc.), and some are retypeset, unproofread full of gobblygook characters... and no other reprint company has anywhere near the complete collection as I have assembled. I have spent around \$1,000 to purchase originals (and spent 15+ hours just searching for them, as they are rare)... and I will have spent 700+ hours to prepare them all (I am about 70% done). It will cost me thousands dollars to print 100 copies of each in paperback (and take up a massive amount of room in my house); but I would love to be able to print them in paperback if only 20 people would be interested in a complete set of the 10 volumes (which contain around 30 individual titles). I

would probably print 5 volumes at a time; with maybe 4 months in between. Are there not at least 20 people who would commit to one set of each of the first 5 volumes now and one set of each of the other 5 volumes later? Prices will vary a little, but just to give an idea, one set of the first 5 volumes (containing around 15 titles) that I print would be 105.00 + 8.00 P&H. I actually have these titles UNDERpriced. a 500-600 page book on quality archival 60# weight paper is normally 30.00 - 45.00. I will list them around 30.00 each at Amazon, if I do print them in paperback, though I am offering them here at the prices you see below. Again, to buy 3 individual titles by the other reprint companies would be 60.00-90.00 for what I have assembled in one volume for 24.00 to 26.00. Every church or homeschool group or home church should have these. Even if 20 people commit to the full set, in several installments, that will still not even cover half of the printing cost (and not even consider my initial outlay or 500+ hours of time), but I would be willing to do so if there is enough interest.

These are amazing books. They show how hard life used to be, but also how much simpler and better it was; it does not hide the ugliness of man's sinful nature, but shows how we can rise above it and not be affected by it and become like it, and also how to honor God and be thankful for all the blessings that He has given us. Life was often hard. People were often cruel. It is no different today, and we are close to returning to those hard times--under even more brutal circumstances. These books teach reality of life, along with Biblical and moral principles, most often within the setting of some historical event, all in a very engaging and touching manner.

Some of the books had subtitles, others did not; some books had alternate titles, since some were translated by different translators or even republished by other publishers who titled them differently. I have listed all known alternate titles.

Volume 12 - [Possibly others to be added]

Still trying to locate:

Truth and Falsehood or The Adventures of a Prince (1866) 188pp., [a.k.a. The Crown Prince and his Scapegoat or Truth and Falsehood (1877) 242pp..] and the Swan Maiden, and others.

[I may also add 2 of his works which will require my adding extensive endnotes; they are both very interesting stories, but full of false ideas: Seppel or the Burning of the Synagogue in Munich, and Hans Egede or the Faithful Missionary to Greenland.]

I may also try to have some translated into English that were never translated into English, if there is enough interest... Does anyone know anyone who could translate from German, Italian, or French who would want to help?

This is an excellent book. Islam was able to conquer Alexandria (Egypt), Syria, north africa, mediterranean islands, Persia, Greece, Spain, Southern Italy, because the garrisons of Christendom were not manned by trained regiments, but undisciplined garrison troops in times of peace--which were largely filled by Africans and Arabs who had "converted" to Christianity--and in the heat of the battle they often changed sides! Furthermore, one of the things that contributed to Islamic success was not their skill BUT THE CAMEL. They, like Rommel and his tanks, could cross the burning desert, strike, and retreat into the burning desert because of their camels... horses and foot troops could not survive in the desert, so by hit and run (if the battle was unsuccessful) they could wear down their opponents; and once they won any victory, they then had control of better weapons and evil fleets of ships and ship building industries. All of the "achievements" and "contributions" and advancements of "arabic/muslim culture" in shipbuilding, navigation, architecture, science, medicine, mathematics, astronomy, etc. were NOT from the Arabs/Muslims, but from those peoples whom they conquered (dhimmis), Syrian Nestorian Christians, Persians, and Hindus (the Hindu advancements, though the author does not mention it, were solely developed by the Sakka, not the indigenous indians, as all of history shows) and others. The arabs employed their conquered peoples and that alone caused arabic culture to flourish, with the misguided notion that it was arabic, since those whose ideas they were, and even those who translated those ideas and works into arabic, were not arabs or muslims but whose names were themselves rendered into arabic. Once those conquered intelligentsia either were absorbed by the arabs or migrated elsewhere (as history reveals the same of most nonwhite cultures), the arabic "flower" wilted and died. Though the book does not say it (or at least not yet) only western minds and technology and skill even allows the arabs to mine the vast oil resources below their sandbox to enable them to fund the building (with western technology) of their cities and grand displays of their opulence (that is, of the sheiks, not the common people, who are still goatherders).

God's Battalions: the Case for the Crusades (2010) Rodney Stark, 288pp., pb., 16.00 + P&H.

A respected and controversial scholar argues that the Crusades were a justified war waged against Muslim terror and aggression. The truth about the Christian Crusades and the Muslim Jihad.

Publisher's Weekly wrote, "It always seems counterintuitive to moderns that warfare and religion can be consistent. Ideally, followers of the prince of peace are to avoid the sword and shield. Clearly, this has not always been the case. Frequently in the crosshairs of critics are the Christian wars against Muslims known as the Crusades, commonly viewed as the birth of European imperialism and the forced spread of Christianity. But what if we've had it all wrong? What if the Crusades were a justifiable response to a strong and determined foe? Stark, a prominent sociologist and author of 27 books on history and religion, has penned a compelling argument that these bloody encounters had less to do with spreading

Christianity than with responding to an ever more dangerous enemy—the emerging Islamic empire. There is much to be learned here. Filled with fascinating historical glimpses of monks and Templars, priests and pilgrims, kings and contemplatives, Stark pulls it all together and challenges us to reconsider our view of the Crusades."

by the same author.

The Victory of Reason: How Christianity Led to Freedom, Capitalism, and Western Success (2005), Stark, Hb. 281pp., 26.00 + P&H; pb., 304pp., 16.00 + P&H. An excellent book, despite the author's faults. In my opinion, he is a liberal minded Christian, who views the Bible from a secular perspective, even equating Catholicism with Christianity; obviously, he does not understand the nature of God's Law, nor the nature of God's people (and that those were also factors behind success); though he does not say so in exact words, it seems as if he believes the Bible can be replaced by "progress" and that society "outgrows" many things contained therein. Though these are serious errors, remember the book is not about theology, but about History, Economics, and Christianity (ie, the nations of Christendom) being unique in the world and having been the motivating factor of the successes of the world. I highly recommend this book. It's merits far outweigh its faults and I only mention its faults so the nondiscerning reader is not confused by these few areas.
