The Great Escape of John Wilkes Booth, Pat Shannan

The conventional wisdom is that the assassin of President Abraham Lincoln – John Wilkes Booth – was shot in the neck and killed in a barn on the Garrett farm in Virginia just 12 days after the murder. But truth is always stranger than fiction.

In this book, longtime investigative author Pat Shannan and others detail a wealth of evidence showing how Booth actually escaped and lived a long life, and who the man in the barn really was. Once you read this book, you'll never look at the Lincoln assassination – or American history – in the same way ever again.

Who was in on the high-level plot to kill Lincoln? Who was Lafayette Baker and what did his cryptic poem, written in the margin of a military manual, really mean? Who was John Stevenson and was his deathbed confession real or fiction? What happened to Booth's accomplices? Who were the Knights of the Golden Circle and how did they fit into the plot? Were members of Lincoln's own cabinet in on the assassination scheme? What about John Wilkes Booth's last will and testament? Who was Izola D'Arcy Booth and what inside secrets did she hold? What happened to Booth's diaries? Booth's gold? How could the body of "Booth" have been so easily misidentified? How could all of this be kept secret for so long – and why?

Excerpt from page 52:

From the diary of John H. Stevenson (Michael O'Laughlin) as told to Lottie Eaton. October 15, 1886: "In the spring of 1864 Wilkes had lunch with me at his Hotel in Washington City, and during this luncheon, he mentioned to me that he had been approached by a 'high government official' and asked to carry out an assignation for the Government. I knew at the time that Booth had carried dispatches for the Confederacy and that his loyalty (if he had any such thing to other than himself) lay with the South. I could not imagine him working for the Union unless it had possible advantages for the South or himself. He then went on to explain that a man high in the government had offered to pay him to kidnap the president of the United States. I did not know whether I believe him or not, but as he talked I realized that the idea appealed to him."

The JFK Assassination and the Uncensored Story of the Two Oswalds, Pat Shannan

The Two Oswalds - The 21st century writers that refer to a singular Lee Harvey Oswald distort their own content and deceive their readers with antiquated data. The John F. Kennedy assassination and the people's deception over the past half century is the classic example of disinformation, as it actually was probably the most efficiently performed coup d'etat and cover-up in world history.

At around 11:30 a.m. on Nov. 22, 1963, Julia Ann Mercer was stalled momentarily in traffic at Dealey Plaza and saw a man emerge from a car carrying a rifle case in front of the grassy knoll, just 50 yards west of the Texas Schoolbook Depository. It was driven by a man that she later identified as Jack Ruby, after his picture was plastered on TV to the world two days later. Information about "the two Oswalds," suppressed for 50 years, is now revealed in this blockbuster book by investigative reporter Pat Shannan.

On November 20th and 22nd, while "Lee Harvey Oswald" was working at the Texas School Book Depository, he was identified by multiple witnesses at the Dobbs House Restaurant, the Top Ten Record Store in Oak Cliff and the Jiffy Store on Industrial Boulevard. He was also positively identified as being seated with Jack Ruby after midnight, some 10 hours after he was jailed on the 22nd. Moments after Officer J.D. Tippitt was shot dead, detectives conveniently found a wallet containing the ID cards of both Lee Harvey Oswald and Alek Hidell. Also found on the street were five ejected .38 caliber shell casings. When Harvey was arrested in the Texas Theater some 40 minutes later, he was carrying a .38 revolver which, of course, does not eject its shells. Harvey also at the time, astonishing to detectives, had a wallet carrying the same two ID cards.

Walter Bower or Bowmaker (1385-1449) was a 15th Century Scottish canon and abbot of Inchcolm Abbey (in the Firth of Forth) and was a reputed chronicler. The illustration on the front cover of this book is from Bower's epic Chronicle, *Scotichronicon* and portrays *Scota* and *Goidel Glas*, the legendary progenitors of the Irish and Scottish Gaels; which work was a continuation of John of Fordun's (c.1355-1384) *Chronica Gentis Scotorum*, the oldest extant complete history of the Scots. Bower's *Scotichronicon* was published in 16 books: the first 5 and part of the 6th (to A.D. 1163) were Fordun's works, augmented by Bower; and some subsequent volumes [to the reign of Robert I. (1371)] he heavily relied upon Fordun's *Gesta Annalia*; however, after that point the work is entirely original, up to the death of King James I. of Scotland (in whose royal counsels he was active [1424-1427], as well as being an administrator in the collection of taxes and as a judge in cases brought before Parliament). He began the work in 1440 and completed it in 1447 and continued to edit and revise it until his death.

In 1991, Donald E. R. Watt, Ph.D. (1926-2004), Scottish historian and professor of Medieval History, and Emeritus Professor of Scottish Church History at St. Andrews University, Scotland) concerning Bower's *Scotichronicon*: "We are more and more convinced that this book is one of the national treasures of Scotland, which should be studied in depth for many different kinds of enquiry into Scotland's past." Bower himself had written: "He is not a Scot who is not pleased with this book."

Some books back in stock or added to catalog or price change:

The True History of The Conquest of New Spain (Mexico), Bernal Diaz del Castillo, 402pp., pb., illustrated, 25.00 + P&H.

Bernal Diaz del Castillo (1496-1584) wrote an important firsthand account of his experiences supporting several expeditions into Central America, including that of Hernan Cortes in the conquest of Mexico in 1521. It's the straightforward account of a soldier, not the dainty and carefully balanced prose of an academic or diplomat. It is thus devoid of "political correctness." This volume allows Diaz to tell his story as he would have it, and, besides his observations of the Aztec people and their temples, he describes their massive ritual sacrifices—the details of which are many times excised from modern history books.

- **"Jews Must Live" (unabridged edition) and "Now and Forever"**, Samuel Roth, 369pp., pb., 27.00 + P&H.

Two unabridged books in one paperback. Samuel Roth (1893-1974) was a decades-long publisher of pornographic materials and a plaintiff in Roth v. United States (1957), a key Supreme Court ruling on freedom of sexual expression. The minority opinion of that case, regarding redeeming social value as a criterion in obscenity prosecutions, became a template for the liberalizing First Amendment decisions in the 1960s. He was sued by James Joyce, tangled with T.S. Eliot and Ezra Pound, and was involved in the Alger Hiss embroglio. Two books by Samuel Roth are presented here. Jews Must Live includes the full text and all illustrations from the original. This is in contrast to a previous 1964 edition which had only half the book. Roth's narrative forms in part a candid exposé of Jewish ritual murder. His testimony has now been given new life in this book. Also includes Roth's Now and Forever: In this strange little book—also presented in full text—Roth discusses the state of Jewry with Israel Zangwill. Zangwill was a playwright who coined the phrase "melting pot." Also included are three related essays—one by Martin Glynn and two by Marcus Eli Ravage.

- **The Host & The Parasite How Israel's Fifth Column Consumed America**, Greg Felton, 550pp., pb., 30.00 + P&H.

—an extraordinarily important book that traces America's slide into fascism and subservience to a foreign power.

Felton argues persuasively that three groups have converged and come to dominate American policy for the benefit of Israel: the neoconservatives, the Republican evangelicals (Christian Zionists), and Jewish Zionists. He backs up his analysis with over 800 footnoted references to government, scholarly and media sources.

Felton refutes the traditional progressive view that Israel is merely a client state of America. If this is so, he asks, how has America come to pursue policies that are so utterly contrary to their own national interest while being so highly beneficial to its junior partner?

Felton also refutes the theory that 'it's all about oil,' arguing that the First Persian Gulf War was the last American oil war and that the Second Persian Gulf War ignored the interests of American oil companies, increased American oil costs and reduced American national security. How could this have happened? The Second War, he demonstrates, can only be adequately explained by the take-over of American foreign and domestic policy for the benefit of Israel.

Felton's book integrates a remarkable range of relevant material, including:

the decline of American republican government from Vietnam to the present;
the rise of American fascism since the Reagan years;
the rise of the pro-Israel lobby in America and its growing influence on the presidency from 1948 until now;
the subjugation of America's House and Senate by the pro-Israel lobby;
the anti-democratic philosophy of Leo Strauss and its corrosive influence on America via the neoconservative movement;
the growth and goals of the Project for a New American Century (PNAC) and other right-wing think tanks;
PNAC's search for a new 'Pearl Harbor' to permit the restructuring of America;
The Israeli foreign policy goal of dismembering Iraq to ensure Israeli regional domination;
the demonization of Islam;
the origins and rise of the religious right in America and its obsession with Israel;

the planned attack on Iran that is being pushed by Israel and its proxies in America; the extremely gloomy prospects for America to “return to normal”

Felton is generous in his praise of others who have explored some of this material such as John Mearsheimer, Stephen Walt, Jimmy Carter and Paul Findley. Felton’s book, however, is a far more comprehensive study of the subject and integrates a much fuller range of issues and data to demonstrate the self-destructive nature of American policy in our time.

For those who imagine that America’s Mideast policy is motivated by “love of justice and democracy,” Felton reviews America’s shameful and ongoing record of supporting dictators and overthrowing democratically elected third world governments.

For those who pretend that America’s Mideast policy is intended to serve America’s self-interest, Felton reviews the appalling cost to America of its pro-Israel policy: thousands of dead American soldiers; trillions of dollars of debt incurred over the years due to higher oil costs and ruinous wars; the enmity of the world; and the destruction of the American system of republican government.

And what has America gained by supporting Israel? Nothing, Felton argues, that can begin to justify the appalling cost.

The book’s cover makes it clear that ‘Israel’s Fifth column’ includes secular neocon crooks like Rumsfeld and Cheney; Christian evangelical maniacs like Bush; and Jewish Zionist power players like Perle, Feith and Wolfowitz. Together, these people have torn up the American Constitution, dedicated America to endless war, bankrupted the country and endangered its security while cynically promoting the interests of a foreign power.

- **Exposing the Lies of History: Deprogramming 101**, Reed T. Sainsbury, 8.5” x 11”, 288pp., pb., color illustrations, 40.00 + P&H.
442 B&W/color photos & images

Reed T. Sainsbury takes you on a whirlwind tour of global history, focusing on the influence Jewish personalities and secret societies have had on history. Uncensored, unabashed, unrepentant, Sainsbury offers his views on history, based upon decades of research—backed up by hundreds of quotes, photos, and 50 chapters of completely politically incorrect but historically accurate information.

Those who win the wars write the history. Our history books and media have been hijacked by wolves in sheep’s clothing pretending to be in favor of world peace, but are on a mission to usher in their Luciferian communist New World Order. In 1917 they stormed into Russia and murdered the benevolent czar and implemented their communist regime, murdering millions of innocent Christians. Now these communist tyrants want to rip up our U.S. Constitution and rule the United States of America with an iron fist. This book exposes their propaganda lies and connects the missing puzzle pieces of history; the deliberately censored ones that keep the masses ignorant of the facts—the forbidden truth they don’t want you to know.

Chapters cover: Zionism, the Rothschilds, the Talmud, Jewish supremacism, the Franklin prophecy, The Protocols, Israel, the U.S. Civil War, communism, World War I, World War II, the Bolshevik Revolution, the Morgenthau Plan, the little-known rape of Germany, Allied atrocities, four real holocausts, why Patton was murdered, Eisenhower’s WWII death camps, the real Adolf Hitler, uncensored facts about the “Holocaust,” the suppression of honest historians, false-flag attacks, the Kosher tax, the origins of the Jews, why Jesus was not a Jew, the real power behind the slave trade, the Illuminati, the French Revolution, the Noahide Laws, the 9/11 attacks, and much more.

Excellent book showing how England fell into dead churchianity / ritualistic orthodoxy (in which many became priests merely because it was an easy, good paying "profession" and many "priests" who "preached" on Sunday never even saw a Bible in their lives...!) after the waning of the Protestant Reformation and the Westminster Assembly (due to the counter Reformation of Rome), and was as dead as the Papacy, though there were shining lights.
